

Gupta Power forays into EPC projects

City-based Gupta Power Infrastructure Limited has forayed into EPC (engineering, procurement and construction) projects for village electrification under different programmes of the Centre and the state government. The company is using in-house products like conductors, cables and poles to the extent of 40 per cent. The company has already electrified more than 500 villages under Biju Gram Jyoti Yojana (BGJY) of the Government of India. It remains committed to electrify more than 1500 villages in the remote areas of Kandhamal and Bhadrak districts under Rajiv Gandhi Gramin Vidyutikaran Yojana (RGGVY), also a Central government scheme. The company has electrified Rugudipali village block Jumidipoda at Kandhamal district.
